Day 3 - Tokyo (B, L)

Today will be devoted to exploring the multi-cultural spots of Tokyo. Our tour will first stop by the Fukagawa Edo Museum where you can get acquainted with the history of Tokyo. This charming museum is designed to replicate what life looked like during the old days of Edo. Walk through the city and enjoy walking into houses that recreate life during the period.

We will also visit the Kiyosumi Garden located nearby. Enjoy a peaceful stroll through a Japanese garden, and be sure to take a picture of the tea house on the waters. We will then delve in the old town district of Asakusa for some gift shopping at the Nakamise area.

We will also be visiting the Sensoji Temple, one of Tokyo's most popular temples. This is the perfect place to appreciate Japanese culture and take some spectacular shots of the famous Kaminarimon (Thunder Gate).

For lunch, enjoy sushi with fish provided by the Tsukiji Fish Market, the famous fish market that provides freshest ingredients for thousands of families and businesses alike.

Following our time at the market, the tour will probe the stores at Harajuku, the unofficial fashion capital of Japan that offers the latest pop culture and fashion. Experience the chaos and beauty that is Takeshita Dori, the place to go for fashion and crepes.

Before leaving Takeshita Dori, walk along Omotesando street, a popular shopping destination lined with trendy cafe's in between.

Returning to our hotel, the tour bus will be passing by the famous Shibuya Crosswalk to be part of the thousands who cross daily, and to see the Hachiko Statue close to the station. The statue is based on the story of Hachiko, the dog who would come back to the station every day to see his owner. Returning to our hotel, this Anime tour will also visit the Gundam Base in Tokyo. The Gundam Base is where we will see the awesome life-size RX-0 Unicorn Gundam model (72 ft). The Gundam Base is an expansive store, museum, and features a cafe for guests to enjoy everything Gundam.

Day 4 - Hakone & Mt. Fuji (B, L, D)

Our morning begins with a visit to the Iyashi no Sato, a traditional craft open-air museum reconstructed from the village's thatched roofed houses. Each house features a different exhibit, workshop, or cafe, including some cooking lessons.

Before making our way to the next destination, we will stop for Hoto, a Japanese noodle dish native to the Yamanashi area. A hybrid of miso soup and flat udon noodles, this dish is truly a local Japanese specialty.

We will continue our journey to Hakone after our time in Tokyo. Enjoy a ropeway to Owakudani, an active volcanic crater still steaming from its last eruption some 3,000 years ago. There you will get a taste of the local Japanese food, the black egg, cooked in one of the craters. It's said eating one of these eggs will add years to your life!

This Japan tour would not be complete without a long relaxing soak in the onsen, hot spring, to rejuvenate you for tomorrow's adventure. Yukata, a Japanese robe, will be provided for you. The onsen is located in our own ryokan, a Japanese style hotel, which includes a traditional Japanese meal known as Kaiseki Ryori!

Day 5 - Kyoto & Nara (B, L)

Our day begins with a bullet train ride to Kyoto. The bullet train is the fastest way to travel on land and is considered an essential Japanese experience. Enjoy riding to Kyoto in comfort and speed, and be sure to take some photos of the scenery during your ride.

We will stop at a sake museum for some sampling and to learn the history of Japan's national drink. We will then head to Fushimi Inari Shrine, one of Kyoto's many can't miss destinations that features hundreds of red torii gates. The path is perfect for

photos or just to calm your mind.

Once we get all our photos done, it's off to Nara to Todaiji Temple. Todaiji Temple holds the World Guinness Record as the largest wooden building. Inside the temple, you will behold the largest Buddha statue in Japan.

Just outside the temple is the Nara Deer Park, where you will be greeted by numerous deer that roam around freely. The deer here at the park are known to be friendly and may even bow at you for a little treat. We then return to the hotel.

Day 6 - Kyoto (B, L)

Our day begins with a visit to Arashiyama to walk through the Bamboo Groove Forest. The morning's sunlight passing through the bamboo makes for a perfect morning sight. We will also enjoy a spirited rickshaw ride through Arashiyama. Guests can enjoy seeing many of the traditional-style shops and temples during the ride.

Following our time in Arashiyama, we will head to the Golden Pavilion, or Kinkakuji Temple, a Japan's must see attraction where the two upper floors are covered in gold leaf. The reflection of the golden temple on the lake adds to the stunning sight. After taking pictures, it's off to Ryoanji Temple to see the stunning rock gardens. Not all Japanese temples have them, so we made sure to include one of Kyoto's zen gardens.

To avoid getting too repetitive with the temples and shrines, we include a visit to the Nishijin Textile Center for a stunning kimono show! Keeping with the traditional feel, we included a tea-ceremony to help you relax before going back to the hotel. In the evening, we will head to the Gion Geisha District, Japan's most famous geisha district. This area is filled with shops, restaurants, and tea houses and the area in Japan that you are

most likely to run into real geisha and maiko on their way to perform at the Gion Geisha Center.

Day 7 - Osaka Departure (B)

Your pleasant and memorable Japan tour ends today. The tour will disband after breakfast. Fly home with cherished memories or enjoy your extended stay in Japan.

Safety and Cleanliness

Japan is extremely safe, with one of the lowest crime rates in the world. The country is also hospitable, clean, prompt, polite, efficient, friendly, and the tap water is safe to drink. Most cities in Japan do not have garbage cans along the streets.

If you have trash with you as you walk, carry it with you until you find the appropriate garbage receptacle. There are separate bins for regular trash, burnable trash, aluminum cans and glass bottles.

Bathrooms

Japan has two styles of toilets. The commonly known Western-style and traditional Japanese-style toilet.

Japanese-style toilets are at floor level, and to use, face the hump. In a location with several toilets there may be a Western toilet as indicated on the door.

On the Shinkansen (bullet train) go for the handicapped stall, because those have Western-style toilets.

In public restrooms, you may need to be prepared with a travel pack of tissues. These packages are often handed out free (with advertisements on the reverse) as you walk along major thoroughfares in the large cities, such as Tokyo and Osaka.

Japan is also recognized for extremely high tech toilets that include heated seats, bidet, deodorizer, and can even play sounds.

Japanese Bathing & Onsen

Bathing in an onsen is a quintessential aspect of Japanese culture. Extremely few countries have public baths like Japan. Towels and swimsuits are not allowed in the actual bath itself as a means to keep the water pure/clean which means everybody is naked.

There are rules you must follow while in the onsen, one of the most important being washing yourself before getting into the bath. Because it is a communal bath, anyone who enters the bath must thoroughly wash beforehand.

In any Japanese bath, there will always be a row or multiple rows of sitting shower stalls where you can wash yourself, usually with complimentary body wash, shampoo, and etc. Though bathing naked with strangers with only a small towel for cover can be a daunting experience, it is one well worth trying.

In case of Emergency

While traveling presents exciting adventures and new experiences, there is always the risk of something going wrong. Our guides and staff will do the best to help you during your tour in case of an emergency, and there is an emergency contact number provided on our "Tour Handbooks" in case you need us during your tour.
